

# Jesus in the Temple - Herod's Palace

This craft is for older children and is a much harder 3d paper build. You will have been given this in your boxes, but you can download below this and print onto card. Below are the cutting details - the main 3 parts have a red line of where to cut and separate first. The pinkish (fushia) colour denotes how to cut the parts out. TABS are to be folded 'inwards'. I'll put pictures up later to show how it goes together.
